

## How do I add a new device?

- Go to Devices and tap the + button
- Devices can be added by entering the Network's Wi-Fi credentials on the Device or using WPS

- **To add via Wi-Fi credentials**

- Tap the dropdown and select which Network you want to add the device to
- Connect the device using the Network Name (SSID) and Password

- **To add via WPS (Devices page)**

- Tap the dropdown and select which Network you want to add the Device to
- Tap the Connect button to enable WPS for 2 minutes
- Press the WPS button on the device you want to add to the selected Network

- **To add via WPS (Point of Sale Network)**

- Go to Networks and tap the Point of Sale network
- Tap the Connect Device via WPS button to enable WPS for 2 minutes
- Press the WPS button on the device you want to add to the Point of Sale network

## How do I approve a wired device on my Point of Sale network or Primary Network?

- Both Primary and Point of Sale wired devices will require manual approval when first connected
- Go to Devices and tap the unapproved Device
- Tap Approve Device and tap Okay
- If the approval was successful, it's recommended to unplug and reinsert the Device's Ethernet cable to ensure it's working properly
- If the approval was unsuccessful, tap Approve Device again or unplug the Device's Ethernet cable for a few minutes and plug it back in to trigger another approval request

**Unapproved Device Detected**  
A device has been connected to Port 2 of Frankie's Cafe router. If this device is intended to be part of the Point of Sale network, please click the button below to approve it.

If this device is intended for a network other than the Point of Sale network, plug it into a suitably configured port. If you do not recognize this device, please disconnect it immediately.

### Successful Device Approval

To ensure your point of sale device is functioning properly, it is recommended that you unplug and plug it back in to the router.

[Okay](#)

## How do I view how devices are connected and mapped in my network?

- Go to Networks and tap Network Map under Shortcuts
