THE REALITY OF WORKPLACE PRODUCTIVITY

$450–$550 billion is lost annually in the U.S. due to low productivity and employee engagement. Low productivity in the workplace can be caused by pesky distractions, inefficient meetings, poor weather, and a number of other factors.

STRESS

End worker misses work each day due to stress. This costs employers an estimated $600 per worker each year.

DISTRACTIONS

Workers are 20% less productive and 45% more likely to be distracted during the summer.

STRESS

One million workers miss work each day due to stress. This costs employers an estimated $600 per worker each day.

KEEP PRODUCTIVITY MOVING

Simplify the way people work and increase team productivity with technology.

1. Collaborative Technology
   85% of professionals depend on technology to collaborate.

2. Enterprise Mobility
   Organizations that embrace enterprise mobility are likely to increase employee effectiveness by 77%.

3. Flexible Workplaces
   Telecommuters are 14% more productive than their office-bound colleagues; working from home increases job performance and productivity while decreasing sick days.

4. Efficient Environments
   Productivity and performance are at their peak during uninterrupted 90-minute intervals.

5. WITHIN BUSINESS APPLICATIONS
   Simplify workflows and improve productivity with access to collaboration and conferencing capabilities within the applications you use most often.

6. INCORPORATE RELIABLE CONNECTIVITY
   Don’t let data limitations interrupt your productivity. Stay connected even during high-usage times with unlimited data and a dedicated connection.

7. KEEP YOUR RESOURCES RUNNING
   Reduce downtime and only productive with access to IT experts who can immediately address your technology issues and keep your IT resources running smoothly.

THREATS TO PRODUCTIVITY
