

MOBILITY IN THE WORKPLACE

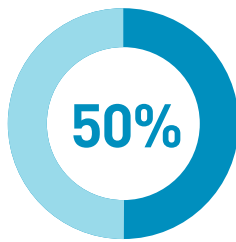

IT'S NOT NEW, IT'S THE STANDARD.

Today's workforce is more mobile than ever. Employees are working across multiple devices to get work done on the go and in more convenient settings. This shift is causing employers to rethink their network and IT environments to better support employees' mobile habits.

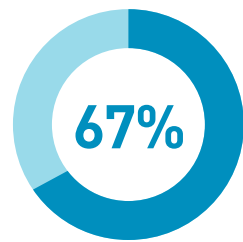

YOUR WORKFORCE IS READY, ARE YOU?

33% of employees are completely mobile

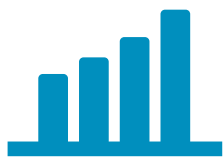

50% of employees are expected to get work done remotely

More than 67% of workers use personal devices at work

DRIVE POWERFUL RESULTS

Organizations that embrace mobility in the workplace are better equipped to drive growth through benefits to employees, customers and the company.

Increase employee productivity by 75%

65% increase in employee responsiveness and decision making

42% increase in customer satisfaction

Companies are 29% more profitable

WHAT IS YOUR MOBILE STRATEGY?

Ways to Get Started

Migrate to the Cloud

Enable remote and mobile access so employees get the information they need anytime, anywhere

Unified Communications

Utilize voice, instant message and video to stay connected in the office and on the go

Applications & Email

Work across your devices to communicate, create, edit and share wherever you are

Mobile Management

Transform your network with intelligent solutions that mobilize your workforce, keep your devices secure and improve employee efficiency

From cloud solutions, to communication tools, to a secure network, Alaska Communications has the solutions you need to increase collaboration and mobility.
