

Collaborate and Stay Connected

WITH RELIABLE CLOUD CONFERENCE SERVICE

EXPAND YOUR REACH WITH SECURE AND CLEAR CLOUD CONFERENCE CAPABILITIES TO HELP YOU WORK MORE EFFECTIVELY FROM ANYWHERE.

The Alaska Communications Cloud Conference Service is a hosted IP based conferencing service that allows you to set up reliable, reservation less audio calls on-demand and connect with invited users from virtually anywhere. Designed for small and medium sized businesses with basic audio conferencing needs, you'll receive an easy-to-use and secure service that can scale up to 25 maximum participants, supported with local or toll-free dial-in phone numbers and access to a user web portal to manage and monitor conference calls remotely.

CLLOUD CONFERENCE SERVICE BENEFITS:

- Save on monthly long distance bill when calls come from select Alaska markets
- No reservation required to host a cloud conference bridge
- Secure bridge with unique password that users can access from virtually anywhere
- Moderator can use web-based portal to mute participants, control their volume, lock conference, record conference, upload their own music on hold and obtain conference call history
