

COMMUNICATE, COLLABORATE, AND CONNECT ANYWHERE

ALASKA COMMUNICATIONS DELIVERS UNPARALLELED REACH WITH ROBUST SATELLITE TECHNOLOGY TO YOUR REMOTE BUSINESS LOCATIONS.

RELIABLE CONNECTIVITY

Satellite Services provides your business with a reliable connection and immediate reach, making mission critical communications possible in the most challenging and remote environments.

From voice and video to data and applications, Satellite Services are designed for businesses in isolated regions that want enhanced productivity and need a reliable connection. At Alaska Communications, we'll help design a Satellite solution for your business with a range of symmetrical and asymmetrical upload and download speeds available.

ENHANCED CONTINUITY

Support your bottom line with access to the latest IP-based satellite technology that lets you communicate and stay connected in the most remote areas.

With Satellite Services, you'll get exactly what you need to efficiently run your business with the right speeds and contention ratio, whether you need internet connectivity, data networking, or backup solutions.

DISCOVER THE BENEFITS

REMOTE SITE ACCESS

Using the latest IP-based satellite technology, we deliver data and internet access across a broad range of industries throughout Alaska.

PEACE OF MIND

Have peace of mind knowing your connection is actively being monitored by a team of experts 24/7, fixing issues before you even know they exist.

BUSINESS CONTINUITY

Reduce uncertainty with a proactive plan to keep your business operational and available in the event of a disaster.

MAXIMIZE PRODUCTIVITY

Make way for tomorrow's technology with a reliable connection to the most remote sites, keeping your business operating at its peak.

EXPLORE THE FEATURES

24/7 MONITORING AND SUPPORT

Receive around-the-clock access to our technical support team that actively monitors your connection and begins resolving issues remotely before you call.

CONTENTION RATIO

Have a reliable connection with a controlled number of users sharing the same bandwidth, with contention ratio options ranging from 1:1 to 10:1.

TOOLS AND EQUIPMENT

Get what you need to keep your business connected including onsite installation, routing functionality, and static IP space upon request.

RELIABLE CONNECTION

With an IP-based platform engineered to deliver high-quality, high throughput broadband connectivity, your business will have what it needs to reliably connect, collaborate, and operate efficiently.

CUSTOM DESIGN

We work with your business to personalize your satellite connection, provide equipment specifications, and select an antenna location for optimum services.

NO DATA OVERAGES

From accessing the internet and voice communications to backing up data and using your favorite applications, remain connected to what matters most without the worry of unexpected data overages.

SATELLITE SERVICE OPTIONS

With Satellite Services from Alaska Communications, you'll gain immediate reach to overcome tough business challenges, whether you need Business Internet, DIA, or a remote connection to your MPLS network.
