

POWERFUL, GLOBAL, SECURE

MAKING TOMORROW'S GOVERNMENT RESILIENT TODAY.

STRENGTHEN INTELLIGENCE AND MAXIMIZE ECONOMIC OPPORTUNITY

As a leading provider in broadband and managed IT services, Alaska Communications provides strategic, best-in-class solutions serving government, public safety and national security organizations. Our network extends across the state to the Lower 48, bringing the highest level of technology, reliability, security and cloud enablement to federal, state and local government agencies.

Recognized as a GSA Schedule 70 service provider, we are determined to maximize efficiencies and provide you with exceptional customer service on Alaska's most secure network. Rely on our team of experts to provide you with high level solutions, helping you maintain global security and uphold policy compliance across mission critical goals.

OUR STRATEGY

RELIABLE PARTNER

We enhance capabilities and efficiencies to make sure your network stays up and running and your data stays safe and secure.

LOCAL CONNECTIONS, GLOBAL REACH

Our fully diverse network connects and protects you and your critical communications anytime, anywhere.

TRUSTWORTHY 'BOOTS ON THE GROUND'

Our highly certified team knows the ins and outs of operating cost-effective IT and network solutions while keeping pace with evolving missions.

WHAT SETS US APART

OUR SUPERIOR NETWORK

Have peace of mind knowing your connection is actively monitored by our expert team 24/7, proactively managing your network availability and performance.

STANDARDS COMPLIANT

Alaska Communications is the first Alaska-based company, and the second in the U.S. to receive certification from the Metro Ethernet Forum (MEF), a global industry alliance that defines Carrier-class Ethernet networks and services. The certification indicates that Alaska Communications meets international standards for its Business Ethernet services, making Alaska one of the best-connected business communities in the U.S.
