RE: ACS of Anchorage, Inc. Short Term Notice of Network Changes NCN 2013-01,
47 CFR 47, Sections 51.325 – 51.335, Disclosure No. NCN 2013-01

Dear Ms. Dortch:

Pursuant to Section 51.325 – 51.335 of the Commission's rules, ACS of Anchorage, Inc. hereby submits the attached Certification of Public Notice of Network Change(s) under Rule 51.329(a) and Certification of Short Term Public Notice of Network Change(s) under Rule 51.333(a).

An original and two copies of this material are attached. A "stamp and return" copy is also attached for acknowledgment of receipt of this material.

Concurrent with this filing, a copy of this information is being submitted to Carmell Weathers on behalf of the Chief-Wireline Competition Bureau of the Federal Communications Commission.

Please contact me at 907.297.3130 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in black ink that reads 'Lisa Phillips'.

Lisa Phillips
Manager, Regulatory Affairs

March 18, 2013

RE: Network Change Notification (NCN2013-01)

ACS of Anchorage, Inc. provides this Short Term Public Notice under Rule 51.333(a).

This network change has been scheduled for April 24, 2013 through approximately May 31, 2013.

Location(s): ACS of Anchorage, North Wire Center Central Office and Mt. View CEV, Anchorage, Alaska.

Type of Change: This project will replace an old existing copper fed Digital Loop Carrier (DLC) with a new fiber fed DLC and cross connect at 6220 Rovenna Street to provide high speed services.

Scope of Work: Alaska Communications proposes the installation of a new DLC to provide additional communication services to the Rovenna Street/Arctic Road area of Anchorage, Alaska. Presently, Alaska Communications is unable to provide DSL and HDSL services to this area without extensive copper and repeater build outs. This new DLC will provide essential non-loaded, non-bridged, POTS, DSL, and HDSL services to the area. By this incorporation, the longest loop will be in approximately the 5,000'-8,000' range, which allows Alaska Communications to provide high speed services. Presently, the longest loop for this area is approximately 24,000 feet.

In addition, this project will extend the service area boundary east to C Street during the ADOT Dowling Road extension/relocation project in 2013, then north to International Airport Road, possibly by the end of 2014.

Impact: Presently, there are approximately 490 subscriber lines that will be affected by this project. Upon completion, this project will shorten the digital loop to the subscriber, resulting in greater reliability, service quality, and allow for the offering of additional services.

Downtime: This project will result in downtime of approximately 5 minutes per subscriber.

Attachments: Please see attached map of the area affected by this change.

Cut Date: Transfer work to begin at or near April 24, 2013 and continue through approximately May 31, 2013.

Carrier

Compliance Date: March 18, 2013 – approximately 490 subscribers (11 GCI customers)
