RE: ACS of Anchorage, LLC Short Term Notice of Network Changes NCN 2014-10,
47 CFR 47, Sections 51.325 – 51.335, Disclosure No. NCN 2014-10

Dear Ms. Dortch:

Pursuant to Section 51.325 – 51.335 of the Commission's rules, ACS of Anchorage, LLC hereby submits the attached Certification of Public Notice of Network Change(s) under Rule 51.329(a) and Certification of Short Term Public Notice of Network Change(s) under Rule 51.333(a).

An original and two copies of this material are attached. A "stamp and return" copy is also attached for acknowledgment of receipt of this material.

Concurrent with this filing, a copy of this information is being submitted to Carmell Weathers on behalf of the Chief-Wireline Competition Bureau of the Federal Communications Commission.

Please contact me at 907.297.3130 if you have any questions concerning this matter.

Sincerely,

Lisa Phillips
Manager, Regulatory Affairs

April 21, 2014

RE: Network Change Notification (NCN2014-10)

ACS of Anchorage, LLC provides this Short Term Public Notice under Rule 51.333(a).

This network change has been scheduled for June 4, 2014 through approximately June 20, 2014.

- Location(s)** ACS of Anchorage, 9550 Basher Road, Anchorage, Alaska.
- Type of Change** This project will replace an old existing copper fed Digital Loop Carrier (DLC) with a new fiber fed DLC and cross connect at 9550 Basher Road to provide high speed services to the Stuckagain Heights area.
- Scope of Work** Alaska Communications proposes the installation of a new DLC to provide additional communication services to the Stuckagain Heights area of Anchorage, Alaska. Presently, Alaska Communications is unable to provide DSL and HDSL services to this area without extensive copper and repeater build outs. This new DLC will provide essential non-loaded, non-bridged, POTS, DSL, and HDSL services to the area. By this incorporation, the longest loop will be approximately in the 8,000' range, which allows Alaska Communications to provide high speed services. Presently, the longest loop for this area is outside the 10,000' range.
- Impact** Presently, there are approximately 402 subscriber lines that will be affected by this project. Upon completion, this project will provide essential non-loaded POTS, DSL, and HDSL services to the service area.
- Downtime** This project will result in downtime of approximately 5 minutes per subscriber.
- Attachments** Please see attached map of the area affected by this change.

Cut Date Transfer work to begin at or near June 4, 2014 and continue through approximately June 20, 2014.

Carrier Compliance Date April 21, 2014 – approximately 402 subscribers (108 GCI customers)
