

Short Term Public Notice Under Rule 51.333(a)

ACS of Anchorage, LLC

May 21, 2025

ACS of Anchorage, LLC (“ACS-ANC”), pursuant to Section 51.327(a) of the Commission’s rules, 47 C.F.R. § 51.327(a), and its Intrastate Access Services Tariff RCA No. 120, Section 2.1.8, “Notification of Service-Affecting Activities,” provides the information below concerning the retirement and removal of certain legacy local switches within its service area.

This Notice may also be viewed on the Alaska Communications website at:
<https://www.alaskacom munications.com/Regulatory>.

Carrier Names and Address: ACS of Anchorage, LLC, 600 Telephone Ave., MS 65, Anchorage, Alaska 99503

Contact Person: For additional information on this Notice, please contact:

Trent Wilson
Regulatory Program Manager
regulatory@acsalaska.com
Tel: (907) 297-3000

Implementation Date: *On or after July 31, 2025.* ACS-ANC is therefore providing short-term Public Notice of these changes pursuant to Section 51.333 of the FCC’s rules, 47 C.F.R. § 51.333.

Location of the Planned Network Changes:

ACS-ANC intends to decommission and retire its legacy local switch in the Anchorage East Wire Center Office (the “EWC DMS-100”) and two subtending remote switches at Fort Richardson (the “Fort Richardson Remote”) and Elmendorf Air Force Base (the “Elmendorf AFB Remote”), as follows:

ACS-N Central Office	Address	CLLI Code
Anchorage East Wire Center (EWC) DMS-100	7441 Debarr Road, Anchorage, AK 99504	ANCRAKXEDS1
Fort Richardson Remote	Building 652 Fifth Street, Fort Richardson, AK 99505	FTRCAKXARS1
Elmendorf AFB Remote	10491 Necrason Avenue, Elmendorf AFB, AK 99505	ELMNAKXARS1

Description of the Planned Changes:

As indicated above, on or after the specified implementation date, ACS-ANC will decommission the Anchorage EWC DMS-100, Fort Richardson Remote and Elmendorf AFB Remote and remove those legacy switches from its network. All traffic (including without limitation all local, extended area service (“EAS”), wireless, paging, intrastate access, and interstate access traffic) currently served by those switches will be migrated to the ACS Metaswitch in the Anchorage Central Wire Center (CWC) central office, 3900 Denali Street, Anchorage, AK 99503, CLLI Code ANCRAKXCDS3 (the “Anchorage MetaSwitch”).

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

To accommodate increased traffic to the Anchorage Metaswitch, competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless service providers, paging carriers, and other affected service providers may need to augment existing trunk groups, secure new trunk groups, or otherwise modify their interconnection arrangements to the Anchorage MetaSwitch in ACS-ANC’s CWC central office. Carriers that are code holders for access connectivity in the EWC DMS-100 will be required to reposition the codes to the Anchorage Metaswitch. These carriers may also choose to discontinue trunk groups or other current interconnection arrangements to the EWC DMS-100. Interconnection arrangements and exchange of traffic at other points in the ACS-ANC network are not expected to be affected by this change.

All Access Service Requests (“ASRs”) for the Anchorage Metaswitch switch must be received no later than June 30, 2025 in order to ensure sufficient time to implement those ASRs and migrate the affected traffic, as described above. These direct end office trunk (DEOT) interconnections will support traffic migration from the Anchorage EWC DMS-100, Fort Richardson Remote, and Elmendorf AFB Remote switches prior to the eventual decommissioning and removal of those legacy switches. Local Exchange Routing Guide (LERG) change effective dates will be posted on or after June 15, 2025, prior to decommissioning of the Anchorage EWC DMS-100 switch. This will serve to guide interconnection re-routes of traffic for the native codes currently served by the Anchorage EWC DMS-100, Fort Richardson Remote, and Elmendorf AFB Remote switches to reflect the Anchorage Metaswitch as the new home switch.

As required under Section 51.333(a) of the FCC’s rules, 47 C.F.R. § 51.333(a), ACS-ANC is serving this notice upon each telephone exchange service provider that directly interconnects with its network, at the address provided for receipt of notices under its interconnection agreement or other interconnection arrangement with ACS-ANC, at least five business days prior to the start of the short-term public notice period. In addition, ACS-ANC is disclosing the contents of this Notice to each interexchange carrier or other service provider interconnected with its network. *See* 47 C.F.R. § 64.702(d)(2).

Certificate of Service

I, Brock Streauslin, do hereby certify that on May 21, 2025, a true and correct copy of the foregoing "Short Term Public Notice Under Rule 51.333(a)," was sent via prepaid express courier with delivery tracking, unless another form of delivery is specified, to:
