

INTERNATIONAL COMMUNICATION SERVICE

SATELLITE MOBILE SERVICE

1. GENERAL

ACS-LD Satellite Mobile Service is a Telecommunications Service which allows Customers to access, via ACS-LD's network, the Space and/or Earth Station facilities of authorized carrier for the completion of calls to Terminal Equipment designed specifically for this service.

2. REGULATIONS

The following regulations apply to ACS-LD Satellite Mobile Service:

- A. ACS-LD Satellite Mobile Service does not apply to calls originating from terminal equipment designed specifically for this service.
- B. ACS-LD is not responsible if communications cannot be established or maintained due to faulty Space and/or Earth Station facilities of authorized carriers or Terminal Equipment of the called station.
- C. ACS-LD Satellite Mobile Service rates apply solely to the interconnection of a call between ACS-LD and the facilities of authorized carriers.

3. APPLICATION OF RATES

ACS-LD Satellite Mobile Service rates consist of a Usage Sensitive Rate. The applicable Usage Sensitive Rate is determined by the Access Code used by the Customer from the Calling Station when dialing the Called Station.

- A. Usage Sensitive Rate. The Usage Sensitive rate is a Rate per Minute that is applied to each minute, or fraction thereof, of an ACS-LD Satellite Mobile Service call.
- B. Rates. ACS-LD Satellite Mobile Service Usage Sensitive Rates are:

<u>Access Code</u>	<u>Usage Sensitive Rate</u>
8816	\$3.50
8817	\$3.50
